

DC-DA1 DVI to VGA Converter

DVI Link's DVI to VGA converter, model: DC-DA1, converts DVI video signal to analog VGA signal. Ideal to connect video sources with VGA output to a digital display with DVI input.

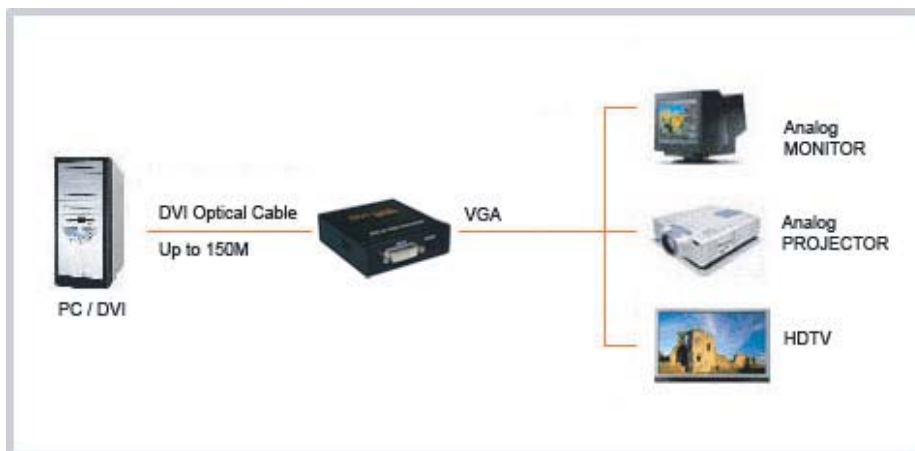

MAIN FEATURES

- Enables outdated video sources with analog VGA output to digital displays with DVI inputs
- Compact and durable design
- Supporting resolutions: VGA(640*480) , XGA (1024*768) , SXGA(1280*1024) , 60Hz

APPLICATIONS

- Automated manufacturing plants, Laboratories: Connect your existing host computers with VGA output to digital displays (LCD monitor, Plasma display, Projector, etc)
- Home Theaters: Connect your existing computers to your Plasma, LCD Monitor and Digital Projectors with DVI ports)

CONNECTION FEATURES

TECHNICAL SPECIFICATIONS

- DVI Data Rate : 1.65 Gbps (single link)
- VGA Bandwidth : 165 Mhz
- Supporting Graphic Resolution : Maximum is SXGA(1280*1024)
- Input Connector : DVI-D 24p Female
- Output Connector : D-sub 15p Female
- Power Supply : DC 5V , 2A Adapter

DIMENSIONS (mm)

- DC-DA1 - 55*80*25

WEIGHT (kg)

- DC-DA1 – 0.08

2009-05
