

VIP Dual

LX 1500

VIP Dual LX 1500

No more limits to your dreams!

Large and bright video projections now match any lighting for outdoor events, TV shows, concerts, etc.

The **VIP Dual concept** is to integrate and control via DMX protocol any large format video projector from 15,000 to 20,000 lumens into a strong, **multipurpose, and versatile yoke**.

From now on, you can move and control any **Christie video projector** as easily as your existing moving lights: Pan, Tilt, Focus, Zoom, Keystone and all video parameters.

No need to move your video projector? Thanks to its **Quick Lock System** (patent pending), you may use it on a static station

SPECIFICATIONS:
