## VIP Dual Roadster S+20K

### No more limits to your dreams!

Large and bright video projections now match any lighting for outdoor events, TV shows, concerts, etc.

The **VIP Dual concept** is to integrate and control via DMX protocol any large format video projector from 15,000 to 20,000 lumens into a strong, **multipurpose, and versatile yoke**.

From now on, you can move and control any **Christie video projector** as easily as your existing moving lights: Pan, Tilt, Focus, Zoom, Keystone and all video parameters.

No need to move your video projector? Thanks to its **Quick Lock System** (patent pending), you may use it on a static station
