

VIP One

LX 1500

VIP One LX 1500

No more limits to your dreams!

Large and bright video projections now match any lighting for outdoor events, TV shows, concerts, etc.

The **VIP One concept** is to integrate and control via DMX protocol any large format video projector from 10,000 to 15,000 lumens into a strong, **multipurpose, and versatile yoke**.

From now on, you can move and control **video projectors** as easily as your existing moving lights: Pan, Tilt, Focus, Zoom, Keystone and all video parameters.

No need to move your video projector? Thanks to its **Quick Lock System** (patent pending), you may use it on a static station and adapt one of our LED wash luminaires **L2D2 or RGBig** on its yoke!

SPECIFICATIONS:

Pan & Tilt Movements:	High resolution (low backlash) DC servo motor Linear command - Pan: 600° / Tilt: 270°
Any position:	upright or truss mounted with EZ-clamp
Data:	Standard DMX512 Protocol
Data input:	XLR 5 pins
Dimensions:	W 927mm x L 939mm x H 1284mm (W 36.5" x L 37.0" x H 50.55")
Weight:	114 kg / 251 lbs (VIP One & LX1500 – without lens)
Power consumption:	2000W max (VIP One & LX1500)

VIP One LX1500 DMX Chart:

Channel:	Parameter:
1	Pan 16 bits - 600°
2	Pan low
3	Tilt 16 bits - 270°
