---

This unique and flexible solution is the result of an intense development process done in a team work by  
Viscon, Vista Europe, Videlco and Videocation.

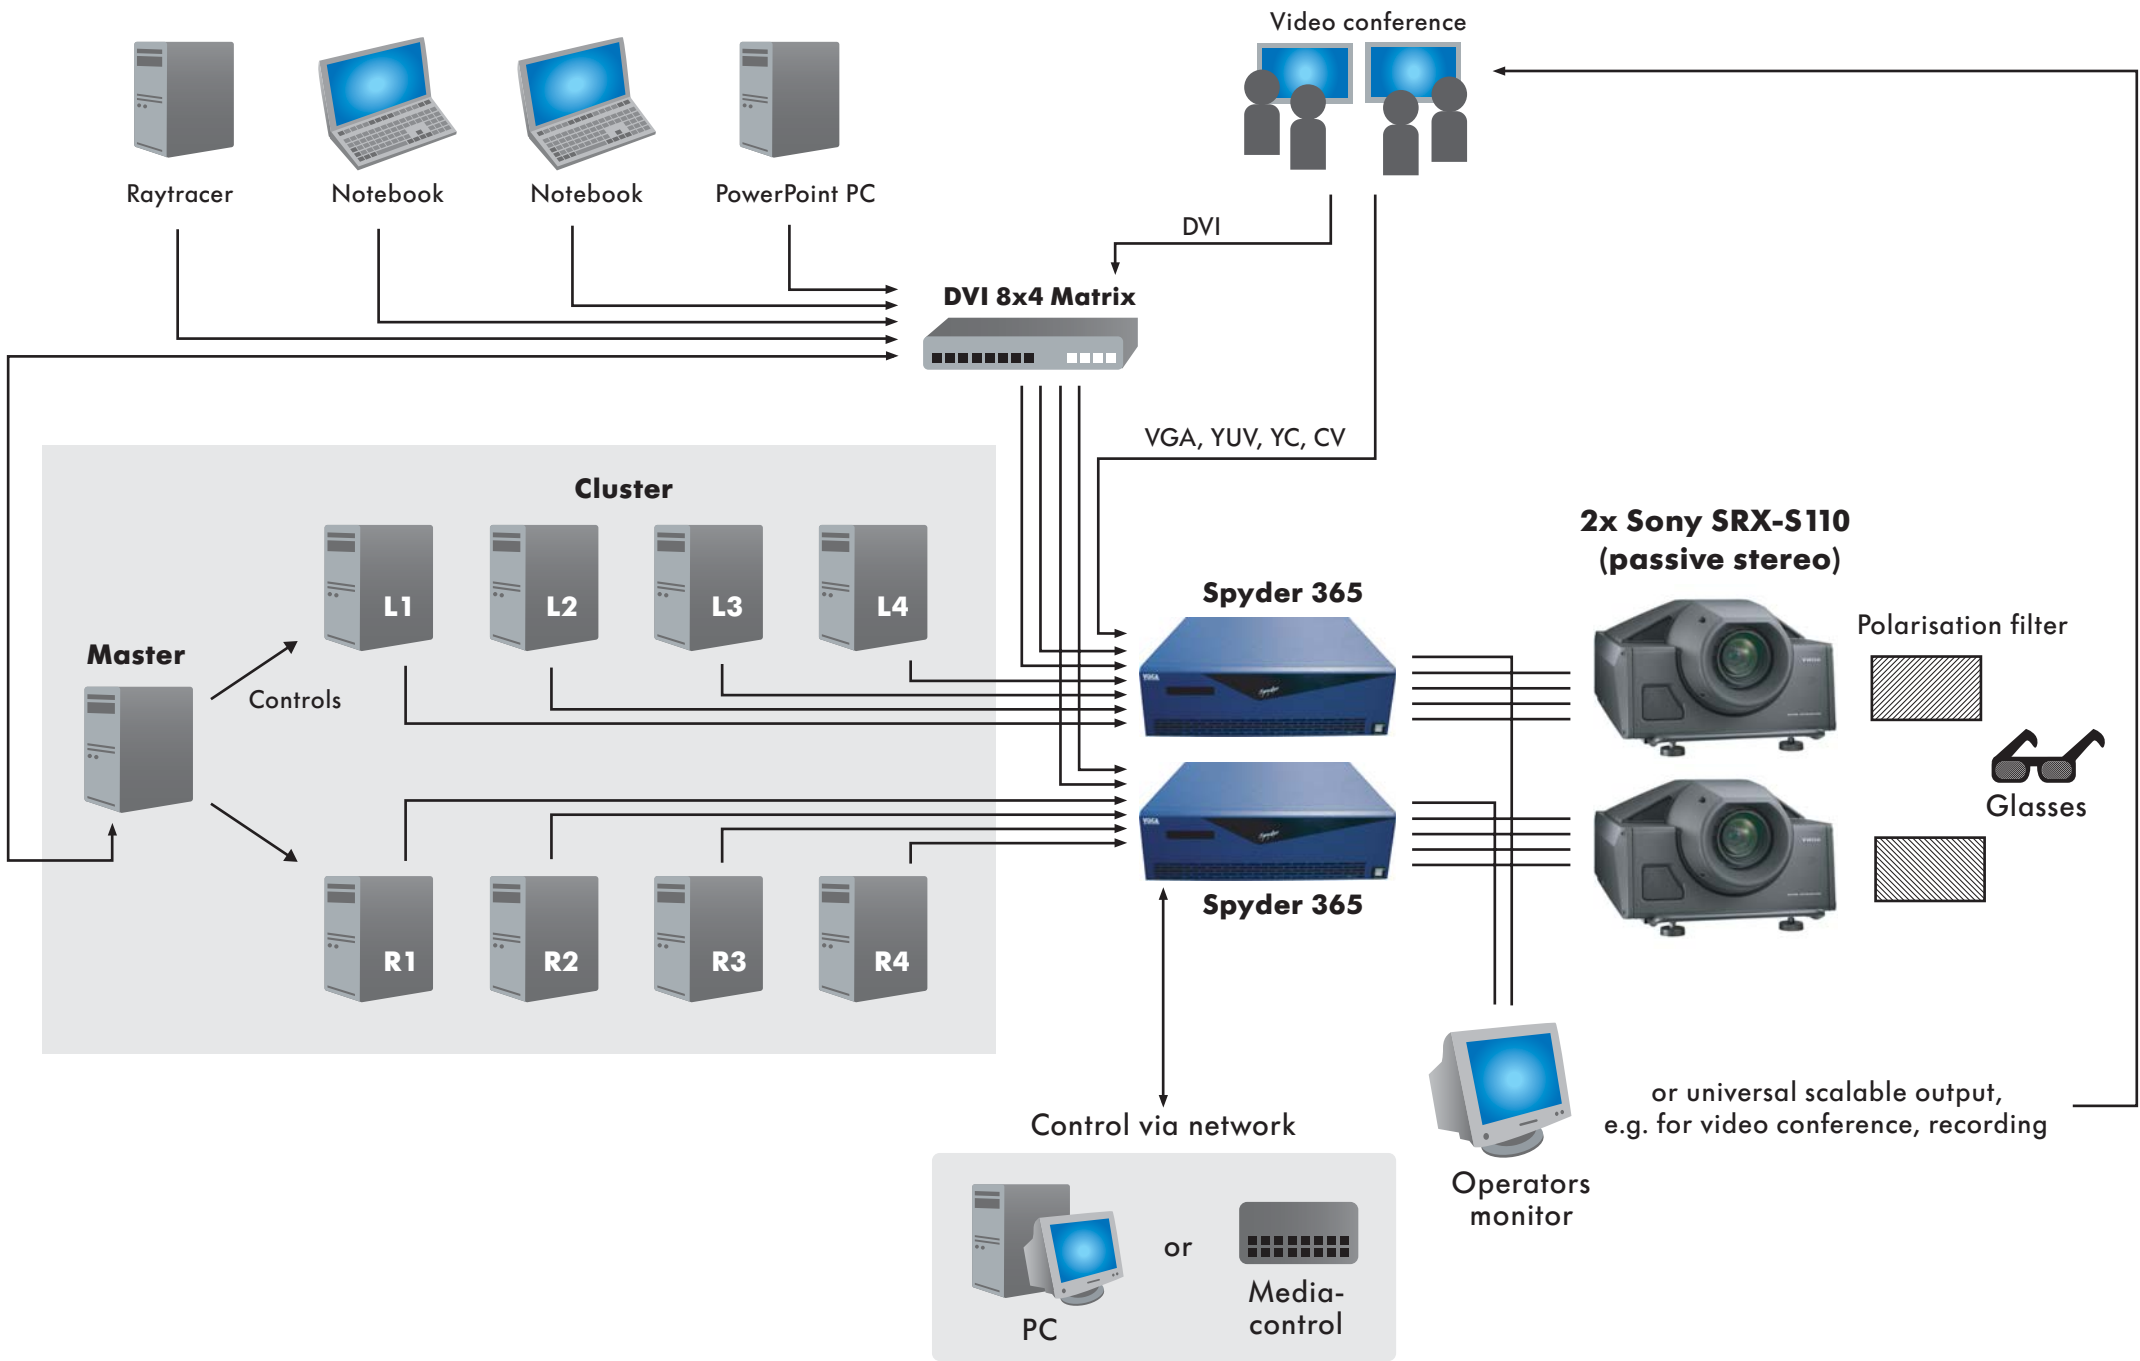

It is the most advanced and creative system fulfilling today's needs in the process of modern design and  
virtual reality appliances which is in production and use already.

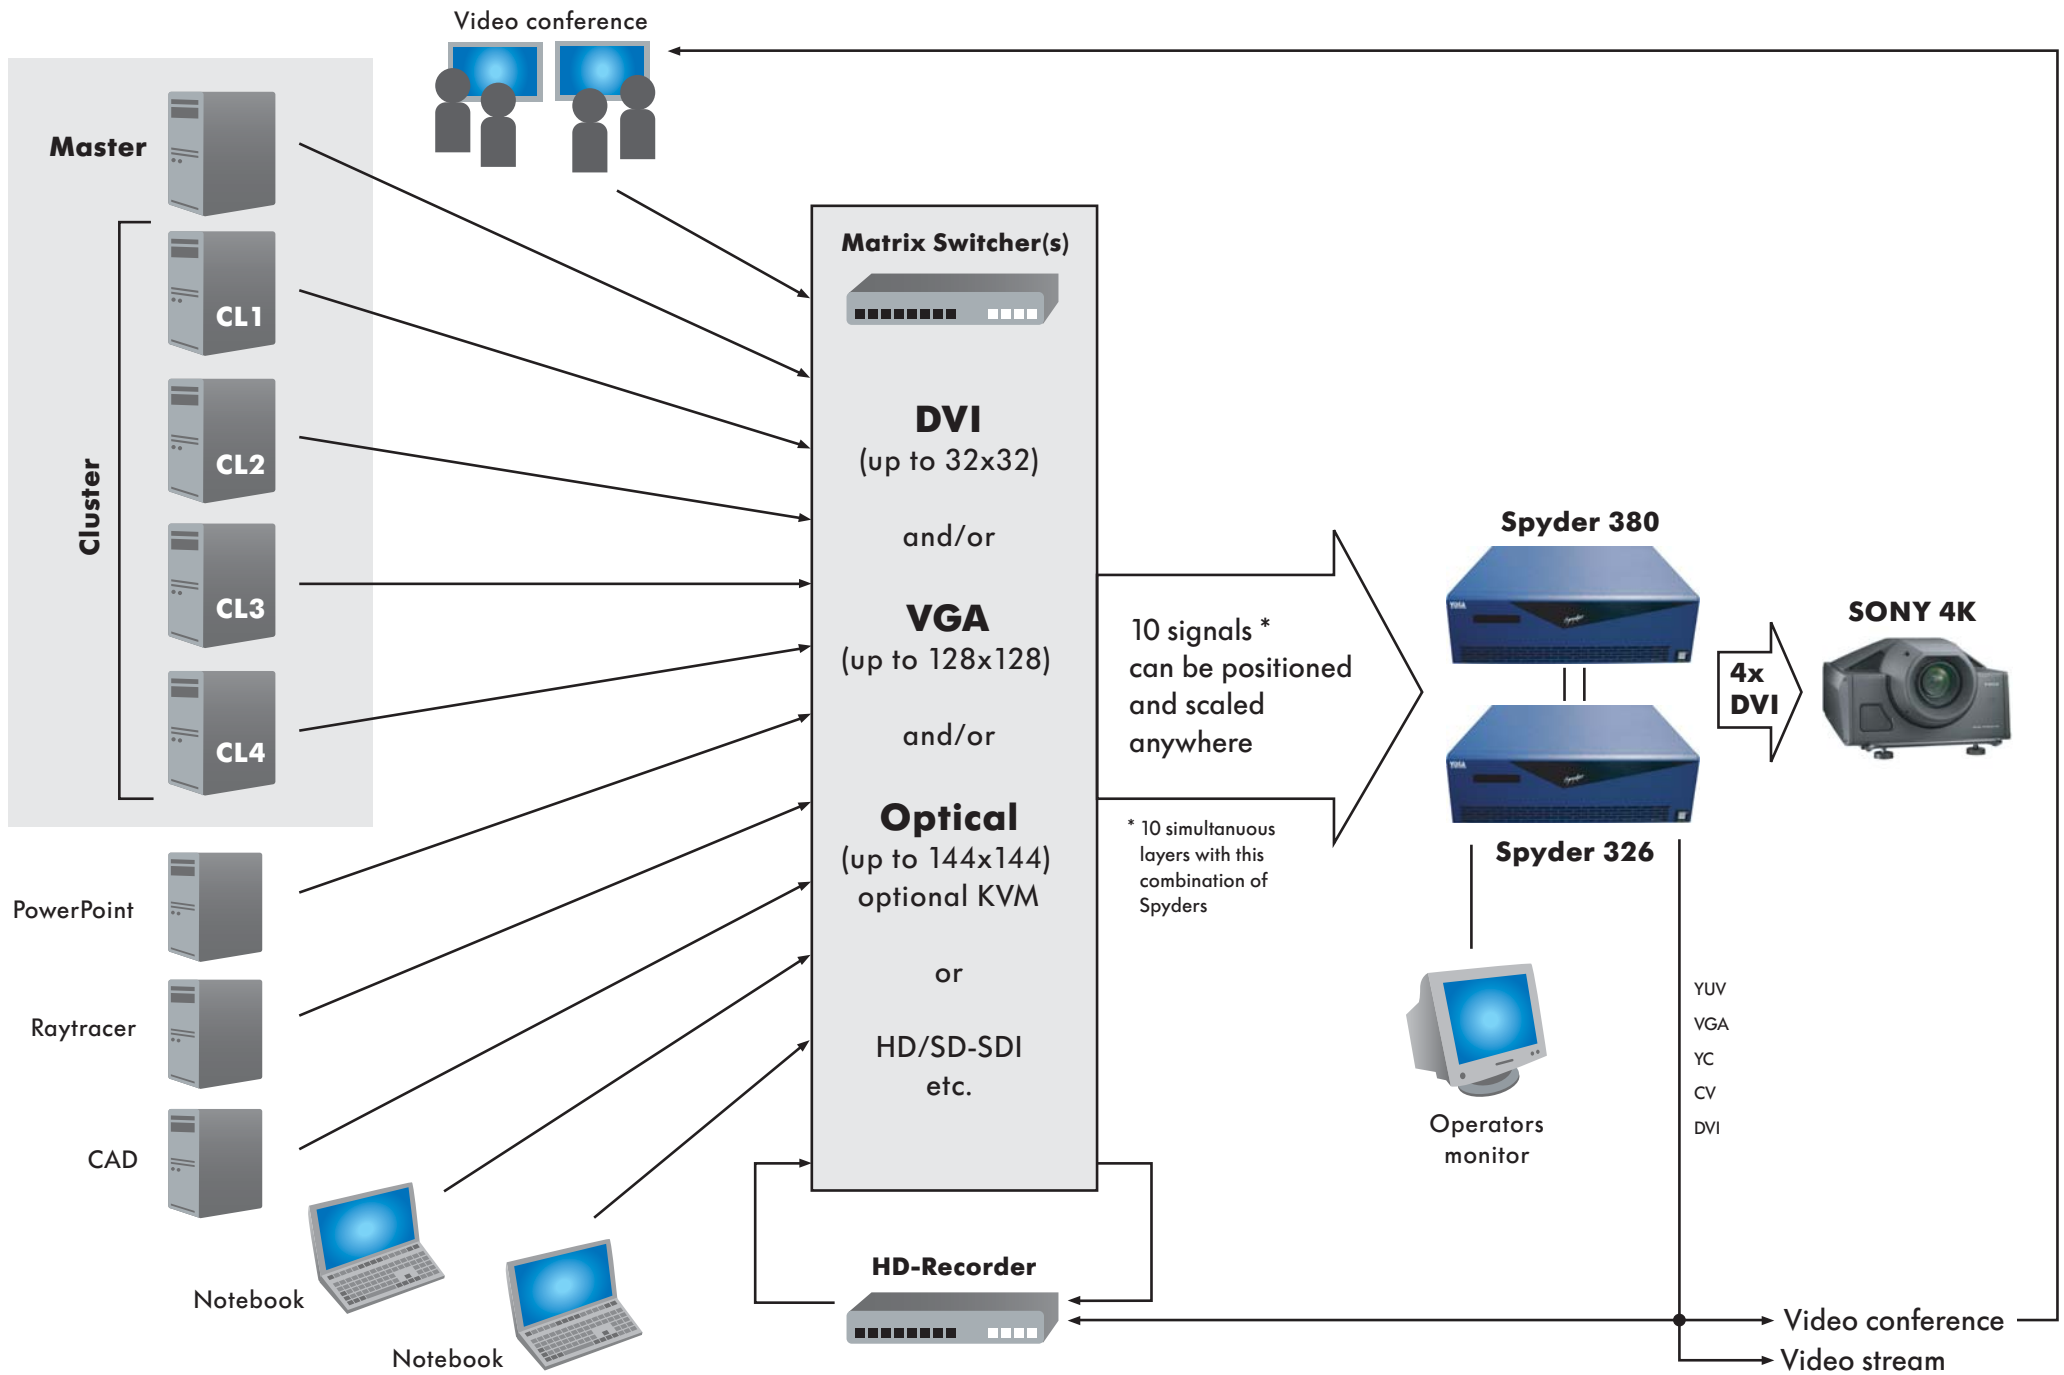

You can place any data or video source anywhere on the 8.8 million pixels large screen.

Feel free to mix your stereoscopic visualization application with your PowerPoint presentation or video conference.

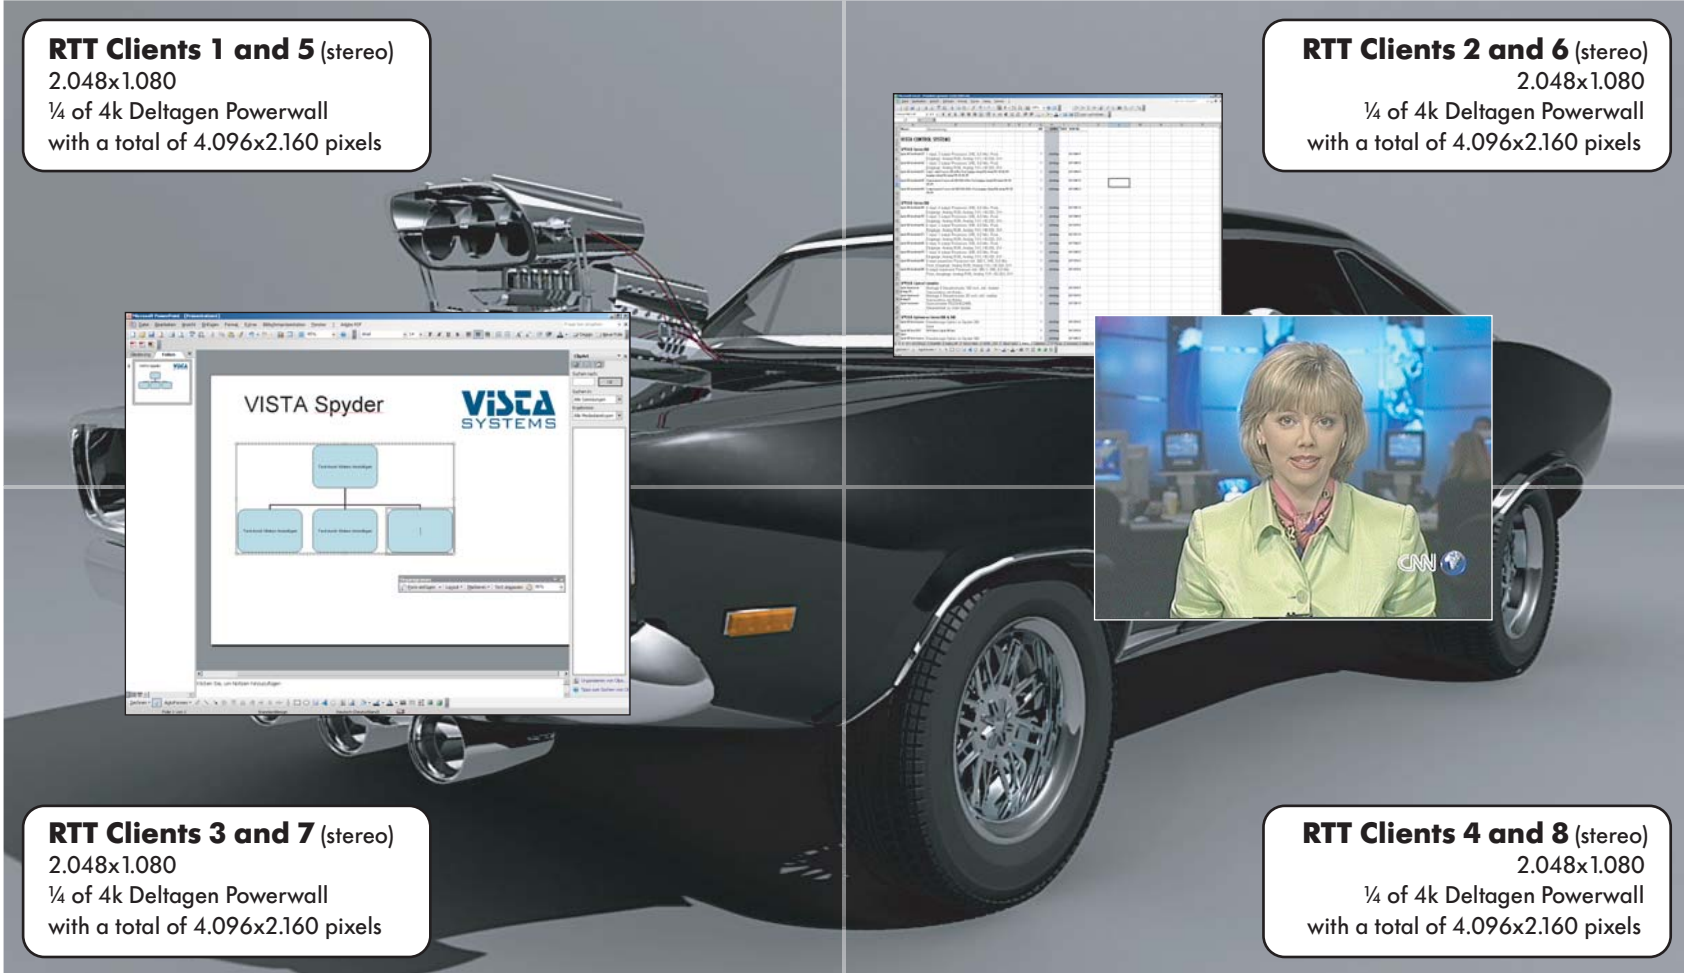

Step up and make your productivity be your own shape.

ViViViVi - creative technologies at your fingertips.

# Result on the screen:

4.096 pixels

2.160 pixels
